

PhD Programme in “Structural, Seismic and Geotechnical Engineering”

The PhD programme in “Structural, Seismic and Geotechnical Engineering” offers 6 positions (of which 5 fully granted with scholarships) for the 36th PhD cycle at Politecnico di Milano. All scholarships cover three years of study and research.

The present call includes the following scholarships:

#	Type	Research topic	Granting Institution
1	Generic	<i>“Structural, Seismic and Geotechnical Engineering”</i>	Italian Ministry of University and Research Politecnico di Milano
2	Generic	<i>“Structural, Seismic and Geotechnical Engineering”</i>	Italian Ministry of University and Research Politecnico di Milano
3	Generic	<i>“Structural, Seismic and Geotechnical Engineering”</i>	Italian Ministry of University and Research Politecnico di Milano
4	Interdisciplinary	Smart Cities: <i>“Physics-Informed Deep Learning for Structural Health Monitoring”</i> In collaboration with the PhD programme in “Mathematical Models and Methods in Engineering	Politecnico di Milano

The following scholarship will be included in the grant in late May. Candidates who participate to the call will be invited to option this scholarship through the online procedure by mid-June.

#	Type	Research topic	Granting Institution
5	Topic	Development of numerical methods for the simulation of fluid/structure interaction problems	Tetra Pak Packaging Solutions

Please notice that, in order to be eligible for the scholarships, you must (in the registration process) declare that you intend to compete for a scholarship (see section 6.4 of the [Quickstart](#)), then from 12 to 19 June 2020 you must select the topic/interdisciplinary scholarships you want to apply (see section 7.6 of the [Quickstart](#)).

For further information about the Interdisciplinary scholarships please visit the [Interdisciplinary Scholarships webpage](#)
