

## PhD Programme in “Industrial Chemistry and Chemical Engineering”

The PhD programme in “Industrial Chemistry and Chemical Engineering” offers 4 positions (of which 3 fully funded with scholarships) for the 39<sup>th</sup> PhD cycle at Politecnico di Milano. All scholarships cover three years of study and research.

The Programme involves the application of chemical, chemical-physical and engineering culture to the identification, synthesis, design, production and transformation of matter and energy. The goal of the PhD programme is to provide students with tools for understanding, planning and managing chemical syntheses, processes and systems, but especially to develop new applications, products and services.

The enclosed table summarizes the scholarships issued in the present call.

Please notice that, in order to be eligible for any of the scholarships, you must (in the registration process) declare that you intend to compete for a scholarship (see also sections 6.4 and 7.6 of the [Quickstart](#) manual).

#	Type	Research Topic	Granting Institution
1	Open Subject	<i>“Industrial Chemistry and Chemical Engineering”</i>	Italian Ministry of University and Research Politecnico di Milano
2	Open Subject	<i>“Industrial Chemistry and Chemical Engineering”</i>	Italian Ministry of University and Research Politecnico di Milano
3	Open Subject	<i>“Industrial Chemistry and Chemical Engineering”</i>	Italian Ministry of University and Research Politecnico di Milano
