

PhD Programme in “Materials Engineering”

The PhD programme in “Materials Engineering” offers 4 positions (of which 3 fully funded with scholarships) for the 40th PhD cycle at Politecnico di Milano. All scholarships cover three years of study and research.

The PhD Programme in Materials Engineering aims at training PhD laureates to be proactive professionals aware of the correlation between the materials structure to properties over several length-scales, the effects of processing on structure, and the final properties in use. This knowledge makes graduates skilled in the design, production and application of both traditional and innovative materials, their optimization for specific applications and the prediction and assessment of their performance.

The present call includes the scholarships detailed below.

#	Type	Research Topic	Granting Institution
1	Open Subject	<i>“Materials Engineering”</i>	Italian Ministry of University and Research Politecnico di Milano
2	Open Subject	<i>“Materials Engineering”</i>	Italian Ministry of University and Research Politecnico di Milano
3	Open Subject	<i>“Materials Engineering”</i>	Italian Ministry of University and Research Politecnico di Milano

Please notice that, in order to be eligible for any of the scholarships, you must (in the registration process) declare that you intend to compete for a scholarship (see also sections 6.4 and 7.6 of the [Quickstart](#) manual).
