CareerService

AM I AN INNOVATOR?

Am I an innovator? What will you do after graduation? There is a universe of answers: which is the right one for you?

If you feel you are an Innovator and you want to make an impact in the world with your work, this is the right moment to think about it! The Career Service will take you on a special pathway to discover careers in Innovation in all possible forms.

- The **Innovator** is a PhD graduate who patents an idea and transforms it into a start-up.
- The **Innovator** is also a research manager who develops an innovative product or a company process.
- The **Innovator** can also be a graduate playing a cross-functional role as an innovation or change manager in organizations.

WHAT KIND OF INNOVATOR WILL YOU BECOME?

We give you short preview on how it works!

1. The first step is to book the [Innovator Interview](#), a one-to-one meeting with the Career Advisor, who will guide you to focus on your skills and goals in order to identify possible career paths related to innovation.
2. During the interview, you might be asked to consider one of the following paths:
 - [Start-up Bootcamp](#)
 - [Innovator Bootcamp](#)
 - [Innovation Sessions](#)

[Discover more here](#). We are waiting for you!
